Work Experience and Role

2023-03 -

Current

Application Development Analyst

Accenture, Bangalore

I develop web apps in Angular.

Across Multiple Projects I:

- Collaborate with multiple teams, communicate and discuss technical topics with technical and business teams.
- Oversee the Front-End development team.
- Implement complex design requirements.
- Implement Data Visualization Techniques using different kind of Charts.
- Ensure all interfaces function correctly.

2021-02 –

2023-02

Application Development Associate

Accenture, Bangalore

I developed well-structured, integrated, reusable components in Angular and React.

Across Multiple Projects I:

- Implemented generic search functionality.
- Improved security of application by leveraging Angular route guards.
- Represented Front-End team and communicated with backend team for data format requirement.
