DOB

25th Feb, 1998

Skills

Angular

React

HTML

CSS & SCSS

JavaScript & Typescript

Git

JAVA, SQL

C, C++, Python

My objective is to secure a challenging position where I can effectively contribute my skills as a Software Engineer.

Work Experience and Role

2021-02 - **Application Development Analyst**

Current

Accenture, Bangalore

I develop well-structured, responsive web apps in Angular.

Across Multiple Projects I:

- Collaborate with multiple teams, communicate and discuss technical topics with technical (backend and design) and business teams.
- Oversee the Front-End development team.
- Implement complex design requirements.
- Implement Data Visualization Techniques using different kind of Charts.
- Improved security of application by leveraging Angular route guards.
- Ensure all interfaces function correctly.

Projects and Tasks

- **DDT** – Used stacked-sequence bar chart from Chart.js with custom tooltip, annotation and data-label plugin with bar-click function.
- Exported chart and table to PDF and excel using jspdf & xlsx.
- **SROV** – Developed an extensive questionnaire screen with auto save answers functionality and resume from the last status.
- **CFO** – Integrated Tableau and Power-BI Reports into Angular.
- **PMI_VAS** – Created Multilingual Application with 4 different flows, screens for Initiate transfer, Transaction History, Admin controls etc.

Education

2016-08 -

2020-08

Bachelor of Engineering: Computer Science and Engineering

Nitte Meenakshi Institute of Technology - Bengaluru

2015-04 -

2016-05

Intermediate

Sri Chaitanya Techno School – Visakhapatnam (CBSE)

2013-04 -

2014-04

Matriculation

Mount Assisi School – Bhagalpur (ICSE)

Interests

Singing, Music, Badminton, Football, Cricket, Volleyball, Chess
